

Eurythmy Teacher

We are seeking a full-time eurythmy teacher for our thriving eurythmy program. We have a beautiful campus with a lovely custom designed eurythmy room. Come join a dedicated faculty, a highly supportive community, and a school with phenomenal programs that provide a rich Waldorf education to all our children. We strive to meet our mission to inspire and educate children to think, feel, and act with depth, imagination, and purpose.

The eurythmy teacher guides, engages, and brings a rich, age-appropriate eurythmy program to our children from Nursery to Grade 8. The full-time teaching load is 24 periods, which includes time for other duties, planning periods, and mentoring with an experienced teacher who has over thirty years of pedagogical eurythmy experience.

- A new teacher does not serve on any committees during their first year at WSB. However, as the Eurythmy Teacher is often involved with Festivals, it would be most advantageous if they sat in on Festivals Committee meetings and became a full member in the following year.
- In our rich and diverse program and community, there are many opportunities to help support our programs, for example class plays, festivals, and adult eurythmy.
- A bachelor's degree or equivalent and eurythmy training is required for this position.

Salary is based on education and experience. Our benefit package includes medical and dental plans, partial tuition remission, 403(b) retirement plan, and financial support for teacher education. We offer a mentoring program and strong, supportive, collegial relationships

Please contact Cecilia Liss, cliss@twsb.org to apply. Please send a letter of intention and your resume'. We look forward to hearing from you.

Our School

Founded in 1971, we have been a full member of AWSNA since 1985. Our beautiful campus in northern Baltimore City is situated on a wooded hillside adjacent to Cylburn Arboretum. The school reflects the diverse nature of its community, drawing students from urban, suburban and rural areas. We are housed in our own beautiful purpose-built building overlooking the city.

Baltimore is vibrant and culturally-rich, offering world-class music, art and restaurants; yet it still has a small town feel. New York, Washington and Philadelphia are a day trip away. Surrounded by the richness of the Chesapeake Bay, it is easily accessible to mountains and ocean beaches.
