

Student Health Forms School Year 2016 -2017

Please return all health forms by June 5, 2016.

State and City mandates require medical and emergency forms to be on file in the school office before your child may attend school. The Department of Health and Mental Hygiene states *that children must be suspended if their records are not in compliance by the first day of school.*

All New Students require:

- Health Inventory Form
- Immunization Certificate

All Children between the ages of 2 and 5:

- *A Parent's Guide to Regulated Child Care* must be signed off on and the acknowledgement returned for your child's file. If you completed this in previous years you do not need to redo this.

All Children's Garden children require:

- Lead Screening Addendum (all children under 6 years)

All First Grade Students require:

- Child Health Assessment: requires an exam to be completed within 6 months of the child entering First Grade

Note: Returning Students: We must have a record of any new immunizations your child receives. It can be on a prescription slip from your doctor. A new physical exam is not required unless student is entering 1st grade.

All Students: A new emergency form must be completed each school year. This form remains in the file and is vital information in case of an emergency or illness.

Please notify the office of any changes.

Medication Administration Authorization Form must be completed by your child's physician if your child requires any medication during the school day, this includes all prescription, homeopathic and over-the-counter medication.

Thank you for complying with these regulations. Please email or phone the office with any questions 410-367-6808 or reception@twsb.org.
